

I oppose the expansion of LPFM that will overpower translator service. The station I listen to, K-LOVE, serves me well and I do not have an comparable alternative station. I believe the worth of this station is invaluable not only to myself, but countless others in my community and surrounding areas. Their message is helpful to citizens and gives tremendous comfort and relief to anyone that listens. I myself help pay for this station to be on air and I want to be able to hear this station in my car or home. Please DO NOT overpower my station with this expansion.
